

How to start?

(The first character must be placed in the left margin, if it is not the program will think the file is empty and will not create the PDF copy)

This program has been assigned the default folder c: / Edit_TxT_PdF and other sub-c: / Edit_TxT_PdF / Doc_PDF c: / Edit_TxT_PdF / Doc_TXT If you alter these folders the program will not work.

1 - Two Options

Create file name, put here the name of the new file extension "txt" and the program automatically generates. If you do not want to create file name, we go directly to Editor-Reader Write a letter here, recuete not exceed the horizontal part of the right, because when you generate the PDF, cut out.

2 - TXT Record, this option would complete the drafting of

text that has been created to save the file you can overwrite has been created before, if a selected option or Create File Name if you opted for direct writing in Editor-Reader in new record documento name without extension "TxT".

If you want to take a copy of this file that you saved, press followed Generate PDF, take a moment, wait and see the file displayed pdf.

Subfolders c: / Edit_TxT_PdF / Doc_PDF c: / Edit_TxT_PdF / Doc_TXT only are to receive the new copy of the PDF and TXT file created by you

3 - Find a load TXT file in any folder and can be to regenerate a PDF copy.

4 - Search PDF opción is the same as above but for PDF files, subfolder in the c: / Edit_TxT_PdF / Doc_PDF.

5 - Delete Delete TXT with any TXT file, you option to cancel the deletion.

This little editor is totally Free and you can modify only send an e-mail of changes to mustalopez@gmail.com Has remedied the defects which teneia changing sub_carpetas. thanks Bicañi Esgici to friends and Fernando Chirico, also I found that copying and Paste is not possible to compile and Mini Official ooHG where possible is better because it is husando as the viewer RICHEDITBOX version Mini Official RICHEDITBOX gives me error and I have set as EDITBOX viewer.

Also I found that not to create PDFs I get the that's why we put bar to indicate the other folders, I pressed some signs and post if some others do not go, the Euro sign € if it comes out.
